

Digital Education Tools to foster Innovation

The EDU+ project is an innovative Erasmus+ KA210 framework project. It emerged in response to the need to increase teachers' digital literacy and competence, as a result of the digital transformation the educational system is undergoing, and to assist them in responding to modern challenges and their students' needs.

3rd Training Activity

From 8th till 12th of May 2023 Izmir, Turkey

HOSTING ORGANISATIONS: ŞEHİT AHMET ÖZSOY SCIENCE HIGH SCHOOL

OBJECTIVE: Introduce the participants to Digital Storytelling as an Innovative Educational Methodology to Strengthen Participants' Skillsets

A digital story is a multimedia presentation combining a variety of digital elements within a narrative structure (a story). Media may include text, images, video, audio, social media elements (e.g. Tweets) and interactive elements (e.g. digital maps). The training consists of 5 days dedicated to: writing a script for stories, finding images, photos background music and finally editing a digital story.

The 5-day Training Activity engaged the participants in workshops, where they learnt how to create digital stories by using the website/ web2.0 tool "storyjumper" and made lesson plans by using the digital story they created. At the end of training, they attended to different classes at Şehit Ahmet Özsoy Science High School to implement the lesson plans they created.
